

# AT 50 HOURS, IT'S TIME FOR ROUTINE MAINTENANCE ON YOUR POWER CURBER 5700-C

**'Proper maintenance of your curb machine makes good sense. It reduces your down time  
--- the costliest part of your curb work. It also increases your machine's re-sale value.'**

**--- Lee Myers, Power Curbers Technical Support**

# Maintenance At 50 Hours

Your machine was shipped from our factory with an extra filter kit in the tool box. If you've reached 50 hours, be sure you use your kit and change:

- Charge filter
- Servo system hydraulic filter element
- Hydraulic tank return filter elements
- Engine oil
- Engine oil filter
- Fuel filters

See Maintenance Manual page 4.7 for other scheduled service

**Factory-recommended maintenance is a smart financial move for you.**

**10% Discount on Filter Kit • Ask for Part # 57C Filter Kit**
